

TexTrace AG is a technology provider with a true Start-up attitude. Correspondingly our scope of work is varied, ambitious and dynamic. Being affiliated to the Jakob Mueller Holding AG we are also part of a globally operating group of companies with our headquarters in Frick, Switzerland.

We develop innovative and sustainable solutions to connect textile and electronics seamlessly - internally with our knowledgeable and competent team and externally with high-tech partners. Subsequently we enable our partners and customers to use the TexTrace technology. Our current market focus is on the global fashion industry, but we already have started to expand our activities into other markets.

We offer you as a committed, confident, and dedicated personality an interesting and varied position within a fascinating, dynamic, and international environment.

To complement our team, we are looking for a

System Architect IoT (m/w/d)
